

Brad,

Thank you for the great job on the voiceovers for my client, ArenaCross Tour. We have been very pleased with the energy and delivery each week. Not only are we using your voice on our radio commercials, we are also using it for the television commercials.

As we discussed earlier, we have plans to expand into a National Canadian Tour as well and plan to use your talents for our events there.

Thank you for always being so easy to work with and prompt in getting the work done quickly.

I look forward to working on many other projects using your talent.

Regards,

Janna
